PREFATORY NOTE.

A Decree published in the "Journal Officiel" for March 30th promulgates a Law which provides for the amendment of certain sections of the French Customs Tariff. The following pages contain a translation of the Law in question and of the Customs Tariff as amended thereby, it having been thought desirable to include in the translation those portions of the Tariff in which no alteration has been made in order that the complete Tariff may be available for consultation by persons interested. The former rates of duty have been added as far as possible, for purpose of comparison.

The products and manufactures of the United Kingdom are subject to the rates of duty shown in the "Minimum" column of the Tariff. In those cases in which no "Minimum" rate is indicated, products of all countries are alike subject to the duties shown in the "General" Tariff.

GEO. J. STANLEY.

COMMERCIAL DEPARTMENT,
BOARD OF TRADE,
April, 1910.

TRANSLATION OF THE LAW OF THE 29th MARCH, 1910, REVISING THE CUSTOMS TARIFF.

ART. 1.—The Law of the 11th January, 1892, establishing the Customs Tariff, modified by the Laws of the 30th June, 1893, 4th July, 1893, 27th February, 1894, 14th November, 1894, 16th August, 1895, 31st March, 1896, 7th April, 1897, 14th July, 1897, 3rd March, 1898, 4th April, 1898, 5th April, 1898, 9th April, 1898, 1st February, 1899, 28th February, 1899, 10th July, 1899, 24th February, 1900, 17th July, 1900, 26th July, 1901, 15th March, 1902, 30th March, 1902, 7th April, 1902, 10th April, 1902, 28th January, 1903, 29th March, 1903, 30th April, 1903, 31st July, 1903, 9th July, 1904, 20th July, 1904, 24th June, 1905, 21st December, 1905, 12th July, 1906, 13th July, 1906, 18th July, 1906, 21st November, 1906, 19th January, 1907, 19th July, 1907, 10th August, 1908, 5th December, 1908, is completed and modified in conformity with the Schedule annexed to the present Law.*

ART. 2.—The privilege of temporary admission is accorded to the following products :—

Sweet almonds, damaged, and bitter almonds, for the extraction of the fixed oil.

Steel wire destined for the manufacture of submarine cables, other than those which are destined to connect France with her Colonies, or to connect French Colonies.

Maize destined for conversion into semolina, semoulette and flour; beans and horse-beans to be transformed into flour under the conditions established for the temporary admission of wheat.

Peas (*pois ronds*) destined to be broken up, decorticated, crushed.

A Decree, issued after consultation with the "Comité consultatif des arts et manufactures," shall determine the method of identification of peas admitted temporarily.

Paraffin and stearin destined for the manufacture of crayons, pastels, and chalks.

The privilege of temporary admission is accorded for a period of three years from the promulgation of the present Law to automobile châssis of foreign origin, weighing less than 2,000 kilogrammes, destined for exportation after having been fitted with a carriage body of French manufacture.

The privilege of temporary admission is accorded to the small watch and clockmakers' wares enumerated below:—

A. Foreign watch cases to be fitted with movements;
B. Movements and bridges destined to undergo the process of finishing;
C. Rough movements imported to undergo the process of stamping;
D. Rims of cases to be fitted with mother-of-pearl bezels and covers.

A Decree issued after consultation with the "Comité consultatif des arts et manufactures" will determine the conditions governing the application of the temporary admission régime to the foregoing articles, particularly as regards assay-marks and warranties.

ART. 3.—The following dispositions shall be substituted for Article 34, paragraph 1, of the Law of the 17th December, 1814, and Article 8 of the Law of the 11th January, 1892:—

'The Government may, by Decrees rendered in Council of Ministers:

'Apply surtaxes, not exceeding double the duties inscribed in the General Tariff, or not exceeding the value of the goods, to all or any goods from countries which may subject French goods to surtaxes or particularly high duties;

'Apply equivalent surtaxes to all or any goods from countries which may treat French products less favourably than the products of other States;

'In the two preceding cases, subject all or any articles which are free of duty in accordance with the Tariff to an *ad valorem* duty not exceeding 50 per cent.;

'Saving Treaty stipulations to the contrary, subject, by way of reciprocity, any foreign goods to duties, taxes or formalities identical with, or, as the case may be, similar to those which, in the country of origin, may be applicable to French goods;

'Establish, with regard to dutiable or non-dutiable goods which enjoy in the country of origin or production a direct or indirect bounty on exportation, a countervailing duty equal to such bounty;

'Take immediate steps, appropriate to the circumstances, in cases where measures enforced by foreign countries may be of such a nature as to restrict French commerce.'

Decrees issued in conformity with the foregoing paragraphs shall be converted into Bills and submitted for the ratification of the Chambers, immediately if they are in session, and if not, at the opening of the following session.

ART. 4.—Article 6 of the Law of the 19th May, 1866, is completed by the following provision:

'Should French vessels be subjected in a foreign country to treatment less favourable than that accorded to vessels of other Powers, the Government is authorised to levy on the vessels of such country entering French ports or ports of a French Colony or Possession, and on the goods carried by those vessels, such duties or surtaxes as may be deemed necessary to countervail the prejudice suffered by the French flag.'

---

* *See* the Prefatory Note with regard to the inclusion in this Return of those portions of the Tariff in which no alteration has been made.

ART. 5.—Article 24 of the Law of the 15th July, 1880, respecting licences is modified to read as follows :—

'Any person, merchant, trader or commercial traveller travelling in France with a view to taking orders on account of firms established in foreign countries, shall be liable to taxes equivalent to the licence and internal taxes to which merchants, traders, and commercial travellers carrying on the same business on account of firms established in France are liable in those countries.

'The same reciprocity of treatment shall be accorded as regards the conditions governing the admission of samples and patterns.'

ART. 6.—The General Regulations relative to the application of the duties shall be revised by Decrees published in the "Journal Officiel."

ART. 7.—Until such time as new measures establishing the Customs régime in the free zones of Gex and Haute-Savoie, in Corsica and in the Colonies and Protectorates may be promulgated, the present Law shall be applicable to importations into France from those territories only so far as regards the reductions introduced in the former Tariff, subject to the measures of control to be taken by the Administrations concerned.

The duties established by the present Law shall not be operative as regards importations of foreign products into the French Colonies and Possessions and the Protectorate of Indo-China until Decrees in the form of rules of public administration, rendered on the report of the Minister for the Colonies, the Minister of Commerce and Industry and the Minister of Finance, after consultation with the General Councils or Administrative Councils of the Colonies, shall have been issued determining the articles which, as an exception to the provisions of paragraph 3 of Article 3 of the Law of 11th January, 1892, are to be subject to special rates of duty. This disposition shall not remain operative for more than one year.

ART. 8.—The Government may maintain in force exceptionally and as a temporary measure the rates of the General Tariff in force prior to the present Law as regards all or any goods the produce of countries which do not subject French products to any differential treatment whatever.

Measures taken to give effect to the preceding paragraph shall be submitted for the ratification of the Chambers, immediately if they are in session, and if not, on the opening of the following session.

ART. 9.—All dispositions of preceding Laws are abrogated in so far as they are contrary to the present Law.

ART. 10.—The present Law shall take effect on the 1st April, 1910.

NOTE.—The surtaxes previously levied in France on certain articles of European production imported from countries other than those of origin, and on non-European products imported from European countries remain unaffected by the present Law.

NEW FRENCH CUSTOMS TARIFF.

Translation of the French Customs Tariff as amended by the Law of the 29th March, 1910; showing, as far as possible, the former Rates of Duty on the Articles specified in the New Tariff.

* By "stave wood" is meant split wood which is destined exclusively for cooperage or packing purposes. As an exception, however, this treatment shall be applied to chestnut stave wood sawn but evidently intended for the manufacture of casks.

† Only strips and laths, cut, sawn or split, of a thickness not exceeding 1 centimetre, are included under this head.

‡ By "hoop wood" is meant only prepared hoops, either in bundles or in circles.

§ Rough wood intended for the manufacture of hoops is classified as perches.

‖ Provided that proof is afforded of the arrival and treatment of the wood in the paper pulp factories to which addressed.

¶ Of maximum length of 1 metre 10 centimetres.

* All oils which do not contain more than 90 per cent. of illuminating matter and which, in the condition they are imported, are not fit to burn in ordinary lamps, shall be considered as crude.

In calculating the 90 per cent. centisimal fractions shall be ignored.

Mineral oil containing not more than 30 per cent, of illuminating matter shall be considered as lubricating oil.

A public administrative regulation, issued with the advice of the Advisory Committee of Arts and Manufactures, will prescribe the conditions under which this percentage shall be established.

Should the declarants, not being satisfied with the test made in the Customs laboratories, claim a legal appraisement, such appraisement shall be effected by chemists entered on the general list prescribed by Art. 9 of the law of January 11, 1892, and their decisions shall be rendered in accordance with Art. 4 of the Law of May 7, 1881.

† Not including the manufacturing tax on oils entering to be refined.

‡ Notwithstanding Art. 24 of the Law dated May 16, 1863, the duties on crude petroleum and on heavy oils and residues are to be assessed on the net weight.

§ The duty leviable by weight on crude petroleum may, on the application of the importers, be converted into a duty per hectolitre under the Minimum Tariff. Said duty shall be at the rate of frs. 7·20 per hectolitre.

‖ The duty on gold hammered in leaves shall be levied on the weight of the leaves plus the interior packing.

* Tissues containing stripes less than 1 metre apart are included in this class.

† In the minimum Tariff the surtax for manufacture with dyed threads will not be levied on striped tissues when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface.

‖ Tissues of this kind, mercerised in the piece, shall pay in addition the surtax prescribed in No. 406 *bis*. (*New Tariff.*)

¶ The duties levied on figured tissues are applied to (1) tissues *à 5 lames ou moins* presenting in their texture the effect of checks, provided that this effect does not involve the application of the surtax prescribed in No. 411 ; (2) tissues in mitation of gauzes, called "soft" or "sophies" ; (3) cellular tissues with warp and woof, plain or figured. (*New Tariff.*)

* Incandescent mantles of tissue of cotton, ramie or linen are dutiable under this Number. (*New Tariff.*)

† Formerly mantles of cotton hosiery tissue for gas burners or spirit lamps were assessed for duty as follows :—

Impregnated with a solution of thorium salts, not calcined—the tissue under No. 419 at the rate of 900 (general) and 600 (minimum) frs. per 100 kilogs., and, on the proportion of thorium salts ascertained by analysis, under No. 282 (5 per cent. *ad valorem*).

Impregnated, calcined and rendered transportable by treatment with a solution of collodion, under No. 282 (5 per cent. *ad valorem*) on 70 per cent. of the total weight.

‡ This rate applied only to glazed (*vernis*) heddles ; unglazed heddles were dutiable as the thread of which composed.

§ As plushes are to be dutiable, those tissues the nap (*poil*) on which when detached and stretched out, measures more than 3½ mm. ; and as velvets, those in which the nap does not exceed 3½ mm. in length. (*New Tariff.*)

* Tissues, simply fulled, of which the nap does not lie in any definite direction, satins and *armures* are not included under this heading. (*New Tariff.*)

† The surface is measured on the body of the carpet, including the ends, selvage and fringes. A tolerance of 2 per cent. shall be accorded in the composition of the rows (*rangées*). (*New Tariff.*)

‡ The unit for calculating the number of rows (*rangées*) is a metre in depth in the direction of the warp. The measurement is made over 10 centimetres, neglecting fractions of a row ; the result of this operation multiplied by 10 gives the number of rows per metre. In the case of carpets whose texture is not uniformly compact, the rows are to be counted as above prescribed, once on the most compact portion and once on the least compact. The average of the two figures determines the classification of the carpet. In calculating the average any fraction in the quotient is to be neglected. (*New Tariff.*)

	Plate and jewellery silvered, and similar wares, gilt ...	150 00	100 00	337 00	225 00
	Wares of pure nickel or nickel plated			150 00	100 00
496 *bis*	Imitation jewellery: Clasps, brooches, bracelets, finger rings, buckles, ornamental buttons, metal shapes for buttons, chains, thimbles, slides, rings (spring or other), carbine swivels, purses (*bourses-cottes*) of meshwork, clasps of all kinds, &c., of base metals, with or without ornaments of real or imitation coral, of vitrifications, mother-of-pearl, bone, ivory, tortoise-shell, imitation or real pearls, &c., and metallic parts of these articles :				
	Of aluminium, German silver, nickel, copper, steel, iron, zinc, tin, lead, gilt, silvered, coppered, oxidized, with or without ornaments, fine steel à pointes	250 00	200 00	375 00	250 00
	Of copper, German silver, nickel, treated with aqua fortis, varnished, enamelled, polished nickelled, with or without ornaments, mourning jewellery of iron, ornamented with glass beads or with hardened wood ; of zinc, lead, iron, ordinary steel, nickelled ; zinc, lead, iron, ordinary steel, polished or varnished, with fittings	150 00	100 00	185 00	125 00
	Of zinc, lead, iron and ordinary steel, without fittings or ornaments	50 00	25 00	75 00	50 00
	Watch and clock makers' wares, small:—				
497	Watch movements without cases* :				
	Movements and escapement-bearers, in the rough or finished state, with or without trace of the escapement being fitted, but without jewelling...	*Per dozen.* 4 50	*Per dozen.* 0 75	*Per dozen.* 4 50	*Per dozen.* 0 75

* (1) Separate plates or false plates forming part of complete movements or escapement bearers are taxed as complete movements and escapement bearers, and classed under Nos. 498 or 497 (according as they are jewelled or not).

(2) All movements, escapement bearers, separate plates or false plates from which have been removed the pieces which show whether they have been jewelled or not, are considered as finished escapements, and taxed as anchor escapements.

(3) All movements, escapement bearers, separate plates or false plates in which the two holes for the balance and escapement wheels have been jewelled, are considered as cylinder escapements.

(4) All movements, escapement bearers, separate plates or false plates in which the three holes for the balance, anchor and escapement wheels have been jewelled, are considered as anchor escapements.

(5) Foreign makers must, in future, affix on the movement of every watch imported into France, as near the barrel as possible and in a visible manner the letter M for a watch cased in common metal, A for a watch cased in silver, and O for a watch cased in gold.

(6) Watch movements bearing the letter M cannot be fitted in a gold or silver case except after payment of the supplementary duty established for gold or silver watches, and after affixing, near such letter M, as proof of payment of the supplementary duty, a special stamp which differs according to the nature of the metal forming the case (gold or silver).

The above rule must be observed for the fitting in a gold case of a movement bearing the letter A.

* *Note continued from preceding page.*

(7) The officials, who, at present, are charged with affixing stamps which guarantee the standard of gold and silver articles, shall be entrusted with collecting the supplementary duty, and affixing at the same time the special stamp. They shall in addition satisfy themselves that every movement of a gold or silver watch on which has been affixed one of the letters exacted by paragraph 5, bears the letter corresponding to the nature of the metal composing the watch case or, in contrary cases, the special stamp proving the payment of the supplementary duty.

(8) All infractions of the present dispositions shall subject the offender to the penalties provided for in the law for guaranteeing the standard of gold and silver articles.

† In the General Tariff, cases of common material with ornaments of gold or silver, or with gilt or silvered ornaments, are dutiable as cases of gold or silver.

‡ In the Minimum Tariff, cases of common materials with ornaments of gold or silver are dutiable as cases of gold or silver. Cases in which the *onglettes*, hinge-joints or crowns are of gold, gilt or plated, are regarded as silver cases; and cases in which the *carrure*, *rehaut*, rim, pendant, crown, ring, *onglettes*, hinge-joints, a small shield, a cipher, initials or decorative ornament are gilt, silvered or plated are regarded as cases of non-precious materials.

Cases of silver partially gilt are regarded as silver cases, Silver cases entirely gilt are to be treated as silver cases if they bear on the inside the engraved inscription : gilt silver. Cases of non-precious material entirely gilt or silvered are to be treated as cases of non precious material if they bear on the inside the engraved inscription : gilt metal or silvered metal.

Watches with cases containing struck or stamped bottoms, as well as separate cases and parts of cases of this kind, are admitted at the same rates of duty and under the same conditions as watches, cases, and parts of cases of other kinds, provided that these watches, cases, bottoms of cases and parts of cases are convex, and do not imitate the flat form of a medal.

	From 250 to 1,000 kilogs. ...	20 00	16 00	36 00	24 00
	250 kilogs. or less	70 00	50 00	75 00	50 00
	General machinery :				
525 *bis*	Milling machinery, cylinder mills, machines for the manufacture of alimentary pastes; pulleys for transmitting power (*poulies de transmission*), lifting apparatus, balances, scales, fixed railway and tramway stock, presses†	15 00	10 00	15 00	10 00
525 *ter*	Typewriters, calculating machines and cash registering machines, and their detached parts, weighing† :—				
	50 kilogs. or more	¶	¶	300 00	200 00
	Less than 50 kilogs. ...			450 00	300 00
525 *quat.*	Machines for rinsing, corking, and placing capsules on bottles, and for filling bottles† ...	‡	‡	30 00	20 00
525 *quin.*	Charging apparatus for blast furnaces; throats of blast furnaces; casting pockets (*poches à fontes*); cast iron mixing apparatus; steel converters, and casting pockets on trucks; rolling-mills; entraining rollers (*rouleaux entraineurs*); scrapers for rollers; charging apparatus for Martin furnaces†	(Not specified).		18 00	12 00
525 *sexiés*	Complete apparatus not elsewhere mentioned†	15 00	10 00	15 00	10 00
	Boilers :—				
526	Steam boilers§‖ of steel or iron plate, whether single or French boilers, with or without feed-water heaters, without tubes	12 00	9 00	14 00	9 00

* Groups of detached parts of machine-tools shall be dutiable at the rates applicable to detached parts, unless the sum of the duties thus calculated is less than the rate leviable on the complete machine of the same weight, in which case the latter rate shall be applied to the ensemble of the parts.

Intermediary shafting clearly separate from machine-tools shall be dutiable at the rate applicable to it.

The only tools which may be imported as integral parts of a machine-tool are those which can be placed in the tool-holders of the machine simultaneously, and not such as serve as spares, which shall be taxed at the rates applicable to them. (*New Tariff.*)

† The importer will be subject to the provisions of Note * to No. 510. (*New Tariff.*)

‡ Machines for rinsing bottles and simple drawing-off apparatus without pump or corking apparatus, were formerly dutiable as "apparatus not specially mentioned"; machines for corking and placing capsules on bottles as "machine tools."

§ Note * to No. 510 is applicable to steam boilers. (*New Tariff.*)

‖ Boiler fittings, safety valves, &c., except those attached to the walls of the boiler permanently are subject to duty according to kind. The cast-iron furnace and bars are dutiable separately under No. 553.

¶ See Note (*a*) at foot of p. 84.
